## Vanguard Properties Introduces Elite Leasing

*Comprehensive Suite of Leasing Services Offered for Renters and Landlords*

San Francisco, California | June 4, 2015

Vanguard Properties, one of the Bay Area's most innovative boutique real estate firms, has announced the launch of Vanguard Properties Elite Leasing. Its team of experienced agents provides a comprehensive suite of home leasing and relocation services designed to take the stress and anxiety out of finding a rental property, as well as complete property management solutions for landlords and property owners.

With access to the highest quality rentals in many San Francisco Bay Area neighborhoods, the Vanguard Properties website, [www.vanguardproperties.com](http://www.vanguardproperties.com), displays the most up-to-date inventory and customized searches of available condominiums, apartments, and single-family homes. For those who may be unfamiliar with the Bay Area or may not have the time to conduct a search themselves, Elite Leasing offers a selection of customized Relocation Services tailored to each client's individual needs and specifications.

For renters, Elite Leasing's market knowledge and network connections provide a valuable advantage. From start to finish, its agents work with clients to educate them on market conditions in various neighborhoods, including valuable insight on rental rates, and arrange personal tours of the best properties available. Through their networks of buildings and owners, they often know of properties prior to them being listed to the public. They'll also help prepare all the necessary forms and information clients need to make the strongest application to a landlord.

Property owners and landlords can rely on Elite's professional leasing services to find qualified tenants and secure favorable leases. Its experienced agents have a thorough understanding of the rental market and the most current leasing trends, allowing them to calibrate preferred rental rates for a property based on its location, neighborhood, amenities and attributes.

With years of combined leasing experience, Vanguard Property Management delivers complete management services for a wide range of properties, including single and multi-unit buildings, furnished and unfurnished homes, and short-term and long-term rentals in San Francisco and the Peninsula.

Since 1986 Vanguard Properties has earned a reputation for its unique and exciting approach to buying, selling, and leasing Real Estate. With offices in San Francisco, Marin and Sonoma counties, and Palm Springs, it is known for its distinctive design and marketing of homes. For more information visit [www.vanguardproperties.com](http://www.vanguardproperties.com).
